A Narration in Glass and Fibre

Two kindred spirits collided many years ago and discovered a common love of the natural world. Over the ensuing years, this and the mutual respect we have for each other as individuals and artists have helped forge a friendship that has resulted in collaboration on many projects. 'A Narrative in Glass and Fibre' tells many stories.

This multi-faceted collection is the Story of our evolution as artists

In our respective fields:

Glass and fibre

*Meg Stephenson
& Kay Joyce*
